Trend Research Report on China Mobile Phone Storage Card Market from 2006 to 2007 内容介绍 :

Abstract - 9 -

Chapter One Phone Memory Card Market Overview (Heading-Century Analysis) - 11-

Section one Chinese mobile phone memory card market analysis of the status quo - 11-

1. Unlimited business opportunities-11-

2, The capacity to promote channels - 11-

3, Cell phone access storage times-12-

1. Storage becomes the mainstream-12-

2, Increasing demand-12-

3. For more intense-13-No.

2 Market trend forecast-13 –

1. Various brand development trend-13-

2, The general trend of development-14-

1. 2010 cell phone users in China and India 1 billion a few super-15-

2. Manufacturers will increasingly rely on emerging markets - 15-

3, the consumer market status-15-

1. Memory card into the era of G-15-

2. The current mainstream memory card and Development-17-No.

3 market development proposals - 19-

Chapter Two Cell phone memory card research study of the environment (Heading-Century Analysis) -21-

article a research background-21 –

the first two studies-21-

No. 3 Research Methods-22 - No.

4 Data Acquisition-22-No.

5 Environmental Analysis-23-

1, The macroeconomic environment analysis-23-

2. Technical analysis-24-1,2007, the development of mobile phone technology trend-24-

2. Future cell phone three largest emerging functional-26-

3. Analysis of socio-demographic - 27-

Chapter Three Mobile phone memory card definition (Heading-Century Analysis) -29-

Section one Cell phone memory card concept-29-

1. Support memory card definition-29-

2, The mobile phone's memory capacity-29-

3, The phone memory-29-4. Phone Memory Card main purposes - 29-

1, Commercial data storage-29-

2, Audio and video storage-30-3. stored procedures-30-

Section two Cell phone memory card classification-30-

1, The cell phone memory card market classifications - 30-

2. Mobile Phone Memory Card Review 2006-32-

3. 2007 Phone Memory five major industry forecast-34-

1, Stored in the expanding field of HPC sites-34-

2. Will become the trend-34-

3, data protection and security will be the focus-34-

4. Paper is not going to disappear - 34-

5. Storage Virtualization future of high-speed growth point-35-

Section three All phone memory card features - 35-

1. Phone Memory Card Technology existing-35-

2, cell phone memory card on the Bluetooth function embodied-37-

3. NOR technology-40-

4, AND technology-41-

5, NAND Flash Memory-41-

6. DiskOnChip™ technology-42-

7. EEPROM derived from the flash memory-42-

Chapter Four Handset memory card market structure analysis (Heading-Century Analysis) -44-

Section one Market structure analysis-44-

1, market structure analysis-44-

2, The distribution pattern of the market-49-

3. Sales continued to show a steady upward trend-50-

4, Smuggling of goods still serious-50-

5. Micro-type flash memory and hard disk memory card flawless - 50-

6. CF card bleak prospects - 51-t

Chapter 5 Phone memory card manufacturers focus on competitiveness evaluation

(Heading-Century Analysis) - 54-

Section one Manufacturers a key competitive evaluation - 54-

1. Focus on brand strategy and channels SWOT analysis-54-

2, Sandisk Brand-54-

3. Kingston Brand-54-

4, Lexar brand-54-

5. Toshiba brand-54-

6, Kingmax brand-54-

7. Panasonic brand-55-

8. Sony brand-55-

Section two Market overview and brand structure-55-

1, Market overview-55-

2. Brand structure attention to the investigation - 55-

Section three Product specifications attention survey-57-

1. Different products concern contrast capacity-57-

2, Different types of cards concern contrast-58-

3. Mainstream manufacturers product line distribution-58-

Section four Price range concern survey-61-

1. Price distribution concern-61-

2, Focusing on the price of different manufacturers products distribution-61-

3. Mainstream manufacturers average price comparison-62-

Section five In 2006 internal memory card market characteristics-63-

1. Memory card sales continued to grow-63-

2, Memory card capacity rising, 1GB become mainstream-63-

3. Brand showed the flourishing trend-63-

4, The memory card sales channels are changing-63-

5. Small memory card market will become mainstream-63-

6, The type of memory card specifications concern analysis-63-

7. Memory card capacity analysis concern-64-

8. Different types of memory card products average price analysis-64-

Chapter Six Of the global mobile phone memory card market size and trend analysis

(Heading-Century Analysis) -6 6-

Section one Global handset market size memory card-66-

1. Global mobile memory card market to the demand-66-

2. Phone Memory Card broad market prospects - 66-

Section two Global memory card market share - 67-

1. Different types of cell phone memory card Development-67-

2. Global mobile memory card major manufacturers Development-67-

Section three Global mobile memory card market trend analysis-68 –

1, The future size of the market will further expand into a-68-

2, Cell phone memory card function of the two trends - 68-

3. Phone memory card will enhance the compatibility - 69-

4, Cell phone memory card miniaturization trend-69-

5. Phone Memory Card price competition trend-69-

Chapter Seven Chinese mobile phone memory card market size and trend analysis-

(Heading-Century Analysis) 70-

Section one Festival handset market segmentation and market potential purchase of trend analysis-70-

1. Different brand cell phone market share position-70-

2, potential users of intent to buy-71-

3. Prices for mobile phone users mental capacity-71-

4, users of the phone function of the extent of the need-72-

5. Different level of education phone function of the use-72-

6. Different income groups, the phone function of the use-73-

7. Phone competition in the market trend analysis-73-

Section two Cell phone memory card market size-74-

1. External memory card phone achievements NAND Flash Memory-74-

2. Multi-chip package (MCP) products is gradually increasing proportion - 75-

Section three Mobile phone memory card market with a bright future-75 –

1, The export market growth trends - 75-

2, Cell phone memory card market segmentation - 76-

3. Phone Memory Card functions trend-76-

Section four Memory card market share - 77-

1. Memory capacity memory card distribution-77-

2, Memory card support of-78-

3. Video broadcast of support-78-

Chapter Eight phone memory card manufacturers led development strategy analysis-80-

Section one All hands Machine Memory Card Technology-80-

1, SANDISK-80-

2, Sony-80-

3. Matsushita - 80-

4, Toshiba-81-

5, LEXAR-81-

6. KINGMAX (Xingchuang Technology) - 81-

7, TWINMOS (Qimao) - 81-

8. imagination (TRANSCEND) - 82-

9, Jinshidu KINGSTON-82-10. Huateng Microelectronics (ATP) - 82-

Section two All resources-82-

Section three The first three years of operation volume of - 83-

Section four Development strategy-84-

1, Market segmentation - 84-

2. Coordination to fight for market share - 84-

3, Sustained a leading edge technology-84-

4. Listing control tempo - 85-

5. Do security work-85-

Section five Cooperative relations-86 —

Section six Summary -87-

Chapter Nine Micro hard disk technology than and market trends (Heading-Century Analysis)

-88-

Section one Micro hard disk technology comparative analysis-88-

1, Micro hard disk advantages : - 88-

2, MMC, SD, MS, Technology TF - 89-

Section two Disk storage cards and various comparative analysis-90-

1. Comparative analysis of structure-90-

2, The transmission speed of comparative analysis-90-

3, The comparative analysis of capacity-91-

4. Interface Analysis-91-

Section three MMC, SD, MS, TF, micro hard disk market trend analysis-92-

1. Memory card and micro-hard struggle-92-

2, The next memory card market struggle between two camps-92-

3. Mobile Phone Memory Card have come to the fore-92-

4, The bright future of the hard drive-93-

5. Micro-disk cell phone more and more popular-93-

Chapter Ten Phone memory card manufacturers comparative analysis-95-

Section one Domestic phone memory card Analysis of manufacturers-95-

Section two Foreign phone manufacturers to analyze the memory card-97-

Chapter Eleven Industry development strategies and recommendations - 100-

Section one Product strategy-100-resolution two pricing strategies - 100-

Section three channels strategy-100 –

Chapter Twelve Phone memory card price development process and trend analysis-101-

Section one The unique information industry market competition law -- the price law-101-

Section two, Mobile phone prices continuing to fall to the cell phone memory card of pressure-101-

Section three, Phone memory card price trends - 102-

1. World of the overall storage market trends affecting cell phone memory card trend of development-102-

2. Phone Memory Card price trends - 103-

3 10th for the next chapter phone memory card technology development impact analysis - 104-

Section three Quality of Flash site of the fatal factors - 104-

1, control chip issues - 104-

2. Flash memory chips issues - 104-

3. Other issues - 104-

Section two Non-volatile Flash memory will face the technological bottleneck-104-

Chapter Fourteen Future Chinese mobile phone memory card demand forecast-106-

Section one In 2007, handset memory card market in the allocation of demand Analysis-106-

Section two Mobile phone memory card will become the standard configuration of your phone's

1-107-

Section three Chinese manufacturers product research and development will trend analysis-107-

Section four Leading Chinese handset market trend card-107-

Section five China phone card market-driven trend-110-

Chapter Fifteen Conclusions and recommendations-113-

Section one policy factors - 113 –

Section two Technical factors - 113-

Section three Market factors - 114-

Section four Competitive factors - 114 -

Catalogue of Charts

Chart 1 : smartphone design industry chain structure-20 –

Chart 2 : H & Q consulting research data / information collection methods-22

Chart 3 : The research data / information analysis method-22 –

Chart 4 : Consumers buy mobile phones, bringing their capacity memory card with the considerations-24-

Chart 5 : overall market and large memory capacity mobile phone market price range of different products concern contrast ratio-25-

Charts 6 : the future development direction of the smart phone-25-

Chart 7 : large memory capacity of the mobile value-added business life cycle map-26-

Chart 8 : Bluetooth fuselage and memory speed test results-38-

Chart 9 : memory card capacity and install JAVA-38-

Chart 10 : the memory card capacity and recording function-39-

Chart 11 : memory card capacity and function calls tone-39-

Chart 12 : capacity memory card and cell phone input feature-40-

Chart 13 : 2006 China market top of the Flash Memory Card Brand X-44-

Chart 14 : 2006 first quarter of the most concern to the seven major flash memory card brand-44-

Chart 15 : 2006 second quarter of the 10 most concern to the flash memory card brand-45-

Chart 16 : 2006 first quarter of the 10 most concern to the flash memory card brand-45-

Chart 17 : 2006 fourth quarter of the 10 most concern to the flash memory card brand-46-

Chart 18 : five main memory card product features - 47-

Chart 19 : 2005 most concern to the former Flash Memory Card, 10-47-

Chart 20 : 2005 different capacity flash memory card concern contrast ratio-48-

Chart 21 : 2005 different types of flash memory cards concern contrast ratio-48-

Chart 22 : 2006 market share of all types of channels - 49-

Chart 23:2006 phone memory card sales. Sales Amount (unit : 10,000 / 10,000) - 50-

Chart 24 : 2006 a quarter of the memory card market brand sales chart-51-

Chart 25 : 2006 a quarter of the memory card market brand Kingpin models chart-52-

Chart 26 : Q2 2006 memory card market in China the status of sales channels - 52-

Chart 27 : Q2 2006 memory card market in China market in the regional market electric appliance store sales market share position-52-

Chart 28:2006, Q2 memory card market average price of different types of (unit : million) - 53-

Chart 29: 2006 Chinese market most concern to the 15 largest flash memory cards Brand-55-

Chart 30 : Ten 2005-2006 Flash card manufacturers concern contrast ratio-56-

Chart 31 : 2006 different capacity flash memory cards concerns the distribution ratio-57-

Chart 32 : 2006 different types of flash memory cards contrast ratio of concern-58-

Chart 33 : 2006 Jinshidu different types of flash memory cards concerns the distribution ratio-58-

Chart 34 : 2006 Weigang different types of flash memory cards concerns the distribution ratio-59-

Chart 35 : 2006 different types of SanDisk flash memory cards concerns the distribution ratio-59-

Chart 36: 2006 different types of flash memory card concern Xingchuang distribution ratio-60-

Chart 37 : 2006 different price range flash memory cards concerns the distribution ratio-61-

Chart 38 : five different manufacturers in product distribution interval price comparison-61-

Chart 39 : 2006 Flash Memory Card manufacturers 10 products average price comparison-62-

Chart 40 : 2006 different memory card specifications concern the distribution-63-

Chart 41 : 2006 different memory card specifications concern distribution-64-

Chart 42 : 2006 different types of memory card products average price analysis-64-

Chart 43 : the cell phone manufacturers sales performance in 2006-66-

Chart 44 : different brand cell phone market share analysis-70-

Chart 45 : three big brands in different cities in the share - 71-

Chart 46 : potential demand for mobile phone brands-71-

Chart 47 : Consumer price affordability of mobile phones - 71-

Chart 48 : existing cell phone users in the phone function of the use-72-

Chart 49 : different level of education phone function of the use-73-

Chart 50: different income groups, the phone function of the use-73-

Chart 51 : 2003-2009, the memory card market shipment growth trend analysis unit : 1000000-75-

Chart 52 : 2006-2010 types of memory card application market share analysis-76-

Chart 53 : Memory capacity distribution contrast-77-

Chart 54 : support memory card and memory card does not support the number of models contrast-78-

Chart 55 : Video support and do not support the broadcast video broadcast contrast the number of models - 78-

Chart 56 : various mobile memory card sales-84-

Chart 57 : 2,005 Chinese market with a new push memory card phone proportion of the memory card-92-

Chart 58 : Apple iPod product configurations-93-

Chart 59 : in March 2007 in Beijing and Shanghai, some memory card price comparison-96-

Chart 60 : January 2007 part of the price reduction from the phone-102-

Chart 61 : China 2004-2005 memory card market size and growth-108-

Chart 62 : China 2006-2010 memory card market sales forecast-109-

Chart 63 : China 2006-2010 memory card market sales forecast-111 -
